PRICE LIST

OF

DECALCOMANIE.

SILK ORNAMENTS.

(Patented, Nov. 12th, 1878.)

MINERAL DECALCOMANIE

FOR BURNING IN ON PORCELAIN.

Materials for Transferring, etc., etc.

Manufactured and Imported by

PALM & FECHTELER,

No. 781 BROADWAY,

Opp. A. T. Stewart & Co.

NEW YORK.

DIRECTIONS FOR USING DECALCOMANIE.

Observe first that pictures showing the colors can only be used on white or very light colored ground; those that have a covering of metal leaf, can be used on any color, light or dark.

To transfer on wood, metal, glass, or any article that is painted or varnished, proceed as follows:

Give the picture, that is the side showing the metal or colors, a thin coat of quick drying varnish, being careful not to go beyond the outlines. Let it remain 5 to 10 minutes, until the varnish is right tacky, then place the picture in the proper position on the article it is to be applied to, dampen with a wet sponge, pressing it at the same time until the paper is thoroughly saturated and adheres smooth. Pull off the paper carefully, and when removed, press the picture well with a damp sponge until every part adheres well: wash it clean to remove the gum and dry it. To brighten the brilliancy of the colors, a light coat of same varnish may be applied.

When our preparations known as Cement and Detergent are used, it is not necessary to trace the design, as the Detergent will remove all the stains.

Our rubber roller is very convenient to press on the picture well and prevent blisters and uneven places.

To apply the pictures to uneven surfaces it is necessary to dampen the paper before laying it on the work. This can be done best by laying the picture after it is coated and dry enough, between two dampened sheets of blotting or any other unsized paper, for ten to fifteen minutes. It will then be found soft and pliable, and will easily take the shape of the article.

To transfer on paper, a solution of Gum Arabic, about the consistency of mucilage is the most practicable.

Give the picture a coat of same and lay it on the surface to be applied to, pressing it well or rolling with the roller. Let it dry for about 10 minutes, and then take it off as usual. Remove the gum with a damp sponge and dry the picture with a clean piece of linen.

IRON ROLLERS, - - - 75 Cts.

DIRECTIONS

FOR USING

SILK ORNAMENTS.

Heat a small smoothing iron, or the roller sold by us, to the usual heat needed for ironing. Then take the transfer and dampen the back of it with a moderately wet sponge. Place the face of picture on the article at once, lay a thin sheet of paper over same, and press with the iron or roll with the hot roller. Then pull off the paper, and the transfer is completed.

To make the picture substantial, it is necessary to remove the gloss that remains on same when transferred. This is done by again applying the damp paper just drawn off, or still better, a piece of dampened muslin, and pressing it with the hot iron.

The same should be done if the picture does not stick well to the fabric, because the iron was not hot enough, or not sufficiently pressed.

On the other hand, if the iron is too hot or too much pressure used, the paper may stick to the picture. In this case wet it again, and it will come off.

If despite of these directions, any of our patrons should not be successful they are requested to apprise us of the nature of their difficulty, and we shall forthwith give information how to avoid same.

	Red Sable Hair Brush.....		per piece 20, 30 & 40

DIRECTIONS

FOR APPLYING

MINERAL DECALCOMANIE.

Give the **PICTURE, AS WELL AS THE ARTICLE** to which it is to be applied, a thin coat of our Transfer Liquid for Mineral Decalcomanie.

After the varnish has become tacky, place the picture between two sheets of damp blotting paper, leaving it there untill the paper becomes soft and pliable.

Then lay the picture on the space to be decorated and roll it down with our rubber roller, proceeding from the centre. By this process all blisters will easily be removed.

Now place the whole in a vessel filled with water, leaving it there untill the paper comes off by itself. To clean the surface of the picture, let a stream of water flow over it, and then place the article so as to allow the water to drip off. Should any blisters appear, they may easily be pressed down with a damp chamois skin. Small defects may be touched up with Lacroix's Tube Color.

It is not necessary to remove the varnish, which will show around the picture, as the same will disappear by the firing process.

Let the article dry for twenty-four hours, when it will be ready for firing.

The Varnish being liable to become thick, thus making it difficult to apply sufficiently thin, it is necessary to occasionally reduce same with turpentine.

Parties meeting with difficulty in transferring Mineral Decalcomanie, will please explain to us, and we will at once give information how to avoid same.

A good precaution in using Tube colors consists in not laying them back in the box on the same side each time, to prevent the color from making a deposit by separating from the Liquid with which it is mixed.—Tube colors should be kept away from heat.

No tubes leave this establishment without the superscription: *A. Lacroix, Paris, Breveté s. g. d. g.* Any other mark is counterfeit.

TERMS

All small orders must be accompanied by Cash or they will receive no attention. Orders of \$5.00 or over we will ship by Express and collect on delivery of package, but a part (at least \$1.00) must be remitted, to secure acceptance.

REMARKS.

Remittances should always be made through Postal Money Order or in Registered Letter. For small amounts (less than \$1.00) Postage Stamps may be sent.

All orders for DECALCOMANIE, SILK ORNAMENTS or MINERAL DECALCOMANIE will be filled by mail, and postage paid by us; but heavier articles and Liquids can only be sent by Express.

Give plainly your Post Office Address, and in case of a heavier parcel, your nearest Express office.

Be particular to state in your order, what class of goods you desire, whether DECALCOMANIE, SILK ORNAMENTS or MINERAL DECALCOMANIE.

Where parties are uncertain about making a selection or wish to decorate a certain article or space, they will do best to leave the selection to us, as we can then send the latest and most suitable designs. They must, however, give us the exact size desired, or the space to be decorated.

By observing the foregoing, our patrons can rely on having their orders promptly and satisfactorily filled.
